

"Government, like clocks, go from the motion men give them; and as governments are made and moved by men, so by them they are ruined too. Wherefore governments rather depend upon men, than men upon governments. Let men be good, and the government cannot be bad. But if men be bad, the government (will) never (be) good."
 - William Penn

William Penn, the founder of Pennsylvania, called our Commonwealth a "Holy Experiment." Our Pennsylvania heritage is unique in its history of liberty, religious freedom, and strong moral base as its foundation.

Today our national and state debt continues to rise. Our citizenry must demand accountability of our government to the founding documents of our nation. As John Adams (*signer of the Declaration of Independence and Second President of the United States*) said: "We have no government armed with power capable of contending with human passions unbridled by morality and religion... Our constitution was made only for a moral and religious people. It is wholly inadequate to the government of any other."

Our freedom and prosperity depends on returning to the original intent of our founding fathers. Please join with us as we work to preserve our great heritage for future generations.
